IPTV from Netvue at JLT

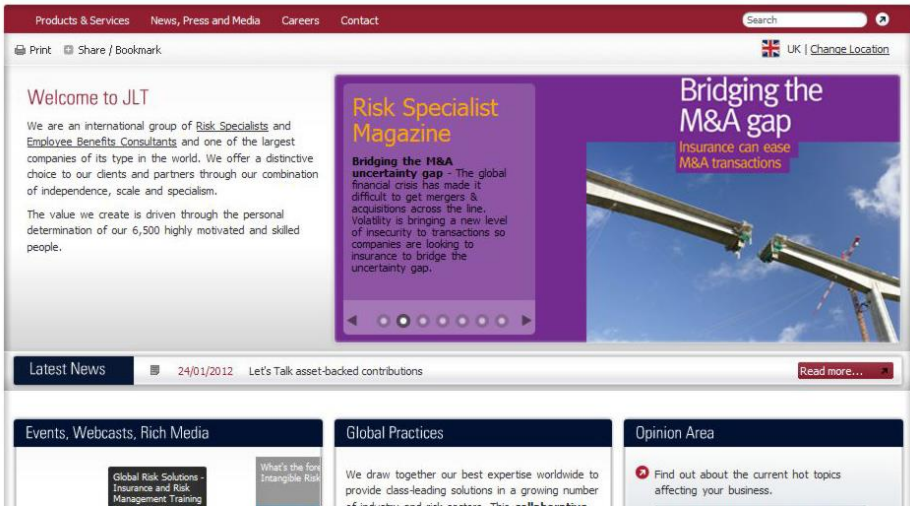

IPTV is the convergence of television distribution with IT data network infrastructure. IPTV has rapidly become the industry standard for TV and audio-visual distribution around buildings.

Jardine Lloyd Thompson bought an IPTV system from Netvue in 2011 to improve audio-visual communications in their City of London offices. The IPTV system is used to distribute live broadcast TV and in-house computer content across multiple sites.

Digital Signage content and videos from computer are encoded as IPTV channels, together with live broadcast UK television, for viewing on screens and computer desktops.

Benefits of IPTV

- IPTV uses the existing computer network - no new cables, no hassle!
- Digital picture quality - immune from noise, distortion and signal loss
- Remote IPTV system management using a web browser
- Unlimited channels with controlled user access
- TV available from any network point throughout the business
- Television delivered direct to PC and Mac desktops on the IT network
- Supports: HD (high definition); auto 16:9 and 4:3 aspect ratio switching
- Easy future additions and expansion

The screenshot shows the JLT website homepage. At the top, there is a navigation bar with links for 'Products & Services', 'News, Press and Media', 'Careers', and 'Contact'. A search bar is located on the right. Below the navigation bar, there are utility links for 'Print', 'Share / Bookmark', and 'UK | Change Location'. The main content area features a 'Welcome to JLT' message, a 'Risk Specialist Magazine' section with a 'Bridging the M&A uncertainty gap' article, and a 'Bridging the M&A gap' section with a sub-headline 'Insurance can ease M&A transactions'. A 'Latest News' section displays a news item from 24/01/2012. At the bottom, there are three columns: 'Events, Webcasts, Rich Media', 'Global Practices', and 'Opinion Area'.

Netvue's IPTV expertise

Netvue specialises in IPTV and Video on Demand systems, with the addition of Digital Signage where desired as an enhancement to the IPTV channels. By concentrating on just these technologies we have built-up great expertise in this field.

As an **independent** systems integrator, we can advise you on equipment from a variety of manufacturers and suppliers without bias, ensuring you get a value-for-money system that really works for your business.

Netvue carry out all the system installation work for an IPTV project; from rooftop satellite dishes right through to the desktop clients for PC and Mac computers. We can advise on the network infrastructure to support IPTV and if needed supply network equipment and cabling.

We are proud to offer a professional service to all our clients, new and old. We have the skills and the experience to specify, design and install the right IPTV system for your company, and one that will serve your business reliably for years to come.
