

Compact, professional Video Player for MPEG-2/4, VOB and WMV-HD video clips, JPEG stills and MP3 audio files.

Applications:

Point of Sale, Point of Information (museums, retail stores, public service offices e.g.), presentations, trade shows, theme parks or advertising.

The ProPLAY HD is a cost-effective and professional solution for applications where the highest quality HD videos are required and where budgetary considerations are important. Any application in which HD video, audio and pictures on-demand are needed is an application for the ProPLAY HD.

Clips are stored on the Compact Flash Card, so playback is virtually instantaneous. Clips may be triggered using external contacts, serial RS-232 commands, play lists and IR-remote as well as IP communication.

The ProPLAY HD can also simply loop continuously when powered up.

Using the contact closure inputs, the ProPLAY HD can be triggered with push buttons, relays or motion sensors; this means that a dedicated control system is not needed in many applications with the ProPLAY HD.

Features

- Storage and Playback of MPEG-2/4, VOB or WMV-HD encoded clips
- Storage and Playback of JPEG pictures and MP3 audio files
- Files are stored on compact flash cards up to 8 GB (not included)
- Control per playlist, RS-232, TCP/IP, IR and contact closure (max. 16 contacts)
- Outputs Composite, Y/C , RGBHV, HD-YUV and HDMI
- Stereo audio (RCA output), HDMI
- Lockable CF-Card Slot
- FTP download

Technical Details

Type	Video Player
Model	ProPLAY HD
Cat. .No.	711060
Front	
Video outputs	Composite (1 x RCA) Y/C (Mini-DIN) RGBHV (Sub,,HD" 15pin) YUV (3 x RCA) HDMI
Audio outputs	Analog Stereo (RCA), HDMI
Control	RS-232 port (Sub"D" 9pin) IP (RJ-45) 16 contact closure inputs (Sub "D" 25 pin) IR remote
Other	Ethernet port 100 MBit/s (RJ-45) for download of new clips Power input (2,5 mm mini connector) Power switch Compact-flash socket, accepts Type I or Type II; max. 8 GB CF-Card Reset button
Video	MPEG-2/4, VOB WMV-HD up to 12 MBit/s
Resolutions	640 x 480 / 800 x 600 / 1024 x 768 / 1280 x 1024 / 1360 x 768 480p, 576p, 720p, 1080i und 1080p
Audio	MP3 up to 320 kBit/s
Dimensions (mm)	270 x 30 x 135 (W x H x D)
Weight	approx. 0,7 kg
Power	External Power Supply (universal), 12V DC
Power consumption	max. 15 W
Conditions	0 – 50° C (with proper air circulation) 5 – 95% relative humidity
Included in delivery	Power Supply and IEC cord (EU-Plug), operations manual
Optional accessories	Compact Flash card (not included in delivery)
